

PORTABLE PHONES

At Dstny we offer two different packages of portable phones. You can choose between two different handsets, but the IP base station Gigaset N610 IP PRO is included in both.

GIGASET N610 IP PRO

IP BASE STATION FOR SMALL & MEDIUM-SIZED BUSINESSES

The Gigaset N610 IP PRO is a Microsoft Teams approved single-cell base that provides seamless wireless telephony for up to 8 concurrent users. If you need to cover a larger area, the base can connect up to 6 Gigaset repeaters. Microsoft Teams support means that connected Gigaset PRO handsets can handle Teams calls.

The indoor range is up to 50 meters and 300 meters outdoors, which can be extended with the help of Gigaset repeaters.

- ECT/DECT-GAP/SIP
- 8 users/phone numbers
- 8 simultaneous calls
- Microsoft Teams integrated
- Wall-mountable
- PoE or included power adapter

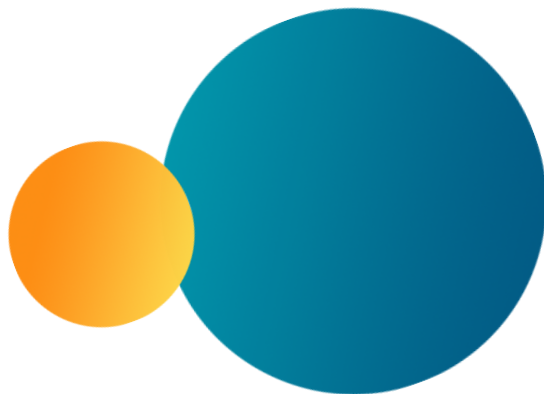

PACKAGE QUALITY

GIGASET N610 IP PRO + GIGASET S700H PRO

In Package Quality, it is the Gigaset S700H PRO handset that completes the IP base. It also includes 1 pc. 3-meter network cable and configuration.

Gigaset S700H PRO is the all-round phone with many functions. Large illuminated 2.4" TFT color screen, Bluetooth 4.2, separate alarm button, headset connection via Bluetooth® or 3.5 mm socket, sound profiles and superb sound quality (HDSF™) make this device the perfect partner in the daily work environment.

- 2,4" TFT illuminated screen
- IP 40 rated
- Bluetooth 4.2
- Headset connection via Bluetooth®/3,5 mm jack
- Up to 12 hours of talk time
- 300 hours standby
- Can be charged/updated via micro-USB

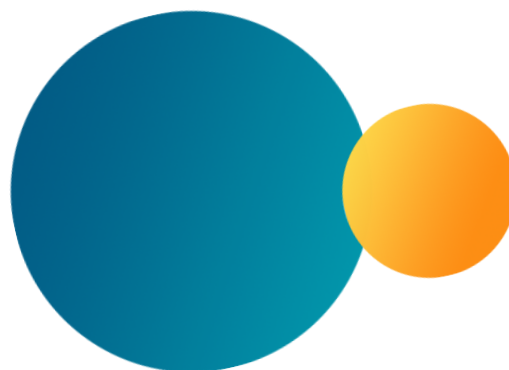

PACKAGE ROBUST

GIGASET N610 IP PRO + GIGASET R700H PRO

In Package Robust, it is the Gigaset R700H Pro handset that completes the IP base. It also includes 1 pc. 3-meter network cable and configuration.

Gigaset R700H PRO is a robust, shockproof, dustproof and waterproof IP65 handset. The handset is designed to be protected against most external shocks, be it shocks from drops, water jets or dust. In addition to these functions, the device is also equipped with a rubber surface that is resistant to disinfectants. This gives it a perfect grip in the hand and it also has an elegant design.

- 2,4" illuminated screen
- IP65 rated
- Protected against metal dust
- Bluetooth 4.2
- Headset connection via Bluetooth®/3,5 mm jack
- Integrated LED light for visual call indication/ use as flashlight
- 13 hours talk time
- 320 hours standby
- Can be charged/updated via micro-USB
