## PREDETERMINED SURF VOLUME FOR A ONE-TIME COST

This is a service that helps you keep track of your surf while traveling.

### PREDETERMINED SURF VOLUME

The service allows you to order a predetermined surf volume for a one-time expense that you can use abroad in a selected zone. When the validity period expires or the amount of browsing is exhausted, the service is automatically disconnected. After fourteen days you can choose to activate a new period if needed.

### AUTOMATIC TEXT MESSAGE

The service will know when your phone is overseas and you will receive an automatic text message. The message contains information about cost, surf volume, and number of days the package applies. By answering the text message, you activate the service.

### ACTIVATE THE SERVICE BEFORE YOU LEAVE

You can also choose to acquire the service even before you travel. This will enable the service automatically when you find yourself in the zone that your selected surf package is valid for. From the time you purchased the service, it is latent for a year to come. Therefore, it is important that you do not acquire the service more than 12 months before you intend to use it.
